SUPPORTING A SAFER, MORE SUSTAINABLE OFFSHORE TOMORROW

OFFSHORE ASSETS SHOWN ARE ILLUSTRATIVE
OF THE INDUSTRIES WE SERVE

ABOUT US

Royal Technology Engineering Pte Ltd is a Singapore-based marine and offshore engineering company, providing reliable and cost-effective solutions for shipyards, offshore and industrial projects.

We are committed to delivering high-quality workmanship, on-time project execution and long-term value to our clients with a team of skilled professionals.

OUR VISION

To be the preferred service provider in the marine, offshore and energy industries worldwide.

OUR MISSION

Committed to delivering efficient, reliable and quality services to our customers with complete customer satisfaction and operational excellence.

OUR VALUES

- Safety
- Quality
- Commitment
- Integrity
- Teamwork

*Building Solutions
Beyond Boundaries*

OUR CAPABILITIES

COMPLETE MARINE & OFFSHORE ENGINEERING SOLUTIONS

01 PIPING WORKS

- Pipe spool fabrication & installation
- Modification and renewal works
- Welding (GTAW/SAW/FCAW)
- Hydrotesting, flushing & reinstatement
- Pipe supports, clamps and miscellaneous works

02 STRUCTURAL WORKS

- Steel fabrication & installation
- Topsides modules and platforms
- Structural repair and renewal
- Supports, brackets and miscellaneous steel works
- Modification works

03 ELECTRICAL & INSTRUMENTATION WORKS

- Cable pulling, routing and termination
- Cable tray and cable ladder installation
- Lighting and junction box (JB) works
- Instrument installation and testing
- E&I maintenance and support works

04 PAINTING WORKS

- Surface preparation (blasting/cleaning)
- Protective coating and marine painting
- Touch-up and maintenance painting
- Tank and topside painting works

05 MECHANICAL WORKS

- Machinery and equipment installation
- Removal and reinstatement
- Repair, renewal and overhaul
- Alignment and mechanical maintenance

06 MANPOWER SUPPLY (ALL MARINE TRADES)

- Welders (SAW/GTAW/FCAW)
- Pipe Fitters / Fabricators
- Structural Fitters
- Mechanics
- Supervisors and other skilled trades
- Electricians / E&I Technicians
- Grinders / Helpers

OFFSHORE ASSETS SHOWN ARE ILLUSTRATIVE OF THE INDUSTRIES WE SERVE

ABOUT US

Royal Technology Engineering Pte Ltd is a Singapore-based marine and offshore engineering company providing reliable and cost-effective engineering services for shipyards, offshore facilities and industrial projects.

Our capabilities cover piping, structural, electrical & instrumentation, painting, mechanical works, insulation works and skilled manpower supply across marine trades.

OUR VISION

To be a preferred service provider in the marine, offshore and energy industries.

OUR MISSION

To deliver efficient, reliable and quality engineering services with a strong commitment to safety, workmanship, schedule and customer satisfaction.

OUR VALUES

Safety | Quality | Commitment | Integrity | Teamwork

OUR CAPABILITIES

PIPING WORKS

- Pipe spool fabrication and installation
- Modification and renewal works
- Welding (GTAW/SMAW/FCAW)
- Hydrotesting, flushing and reinstatement
- Pipe supports, clamps and miscellaneous piping works

ELECTRICAL & INSTRUMENTATION WORKS

- Cable pulling, routing and termination
- Cable tray and cable ladder installation
- Lighting and junction box works
- Instrument installation and testing
- E&I maintenance and support works

MECHANICAL WORKS

- Machinery and equipment installation
- Removal and reinstatement
- Repair, renewal and overhaul support
- Alignment and mechanical maintenance

INSULATION WORKS

- Piping and equipment insulation
- Hot and cold insulation
- Removable insulation covers / pads
- Cladding installation and renewal
- Insulation repair and reinstatement

STRUCTURAL WORKS

- Steel fabrication and installation
- Topside modules and platforms
- Structural repair and renewal
- Supports, brackets and miscellaneous steel works
- Modification and reinforcement works

PAINTING WORKS

- Surface preparation and cleaning
- Protective coating and marine painting
- Touch-up and maintenance painting
- Tank and topside painting works

PROJECT SUPPORT

- Multi-discipline marine project support
- Fabrication, installation, repair and maintenance support

MANPOWER SUPPLY – ALL MARINE TRADES

- Welders – SMAW / GTAW / FCAW
- Pipe fitters / fabricators
- Structural fitters / fabricators
- Electricians / E&I technicians
- Insulators
- Mechanics / riggers / grinders / helpers
- Supervisors and other skilled trades

INDUSTRIES WE SUPPORT

Our engineering capabilities are suitable for marine and offshore assets including FPSO/FSO units, topside modules, jack-up rigs, semi-submersible units, wellhead platforms, vessels, shipyard projects and related industrial facilities.

Note: The offshore asset images used in this brochure are illustrative and do not represent completed Royal Technology Engineering projects unless specifically identified as such.

SAFETY

We promote safe work practices, responsible execution and compliance with applicable project and yard requirements.

QUALITY

We focus on workmanship, inspection requirements and reliable completion of assigned works.

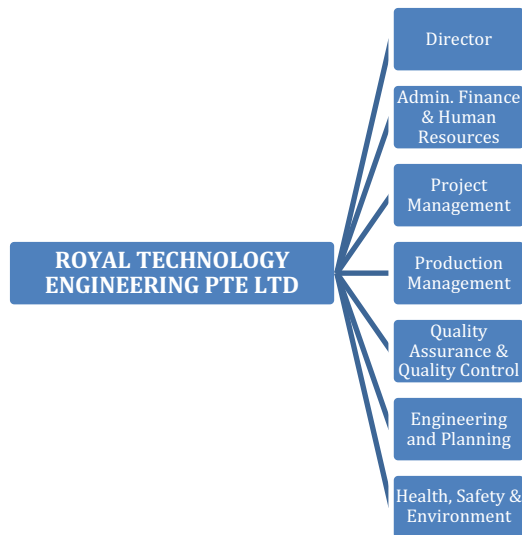

PEOPLE

Our strength is our skilled workforce, experienced supervision and multi-trade capability.

DELIVERY

We plan and coordinate resources to support project schedules and minimize operational delays.
